### Hurl Charges in Retaliation To Efforts to Prevent Power Seizure

#### TENSION IS MOUNTING

### Heavy Voting Yesterday Is Said to Have Alarmed Communists

By Michael Chinigo  
I. N. S. Staff Correspondent

ROME, Apr. 19 — (INS) — Italian Communists hurled charges of election "fraud" today in retaliation to the Government's declaration that it has taken steps to frustrate a new Communist plot aimed at seizure of power.

Communist newspapers carried the banner headlines "Shameful Fraud at the Polls by Christian Democrats" after Defense Minister Mario Facchinetti disclosed that he is ordering redistribution of troops to meet the new threat.

Tension mounted as Italy entered the 50-hour period which Facchinetti described as the "most critical" of its crucial election contest.

The Rome Communist newspaper *Unita*, backing its charges of fraud, asserted that voters were given ballots already marked for the Christian Democrats and that 20 priests and nuns have been arrested.

It also charged that the Government is sending police to locate all anti-Communists who have not voted and forcing them to go to the polls, which close at 2 p. m. today.

The Ministry of Interior countered with the charge that it is the Communists who are handing voters ballots already marked. It also announced that the voting deadline might be extended to permit late-comers to cast their ballots. This move, too, drew Leftist fire.

While Communist leaders privately conceded that the heavy voting yesterday had drowned their victory prospects, Facchinetti accused them of plotting to create confusion which they could exploit in a possible uprising.

But he said that the Government has worked out "flawless plans" to smash the attempt.

Defense Minister Cipriano Facchinetti declared that the government is aware of the Communist strategy and "has the means and has worked out flawless plans" to smash it.

He said that beginning at 7 o'clock E.S.T. today and for the ensuing 50 hours Italy will live through the most critical period of its crucial election.

## "Story of Seeds" Told Garden Club Members

NEWTOWN, Apr. 19 — "The Story of Seeds" was presented at the meeting of Newtown Garden Club at the home of Mrs. S. Wilfred Smith, here, at the end of the week. The speaker was Miss Elizabeth A. Woodman.

The earliest plants, it was said, had no seeds. They divided as bacteria or reproduced by spores as Algae. In the Carboniferous age, horsehairs and fern fronds were spore bearers. The Dinosaur era brought the gymnosperms, mostly cone producers with naked seeds.

Miss Woodman gave a report of the finding of more than 100 trees in China in 1946, considered extinct. They were related to the sequoia in the western part of the United States, but are deciduous like the cypress. Listed as meta-sequoia, they grow 100 feet tall and 7½ feet in diameter. Seeds from them are being experimented with at Arnold Arboretum.

The real flowering plants came in the age of mammals, and by the Metazoe period were quite well developed as to seeds. Various methods are used by plants to perfect their seeds. Different types of seed coats and capsules and pods were shown.

The 182 head are classified in the following groups: two excellent; 31 very good; 63 good, plus; 56 good; 29 fair; and two poor; giving an average score of 80.13 which is said to be well above the average score for all cows classified in Pennsylvania. The average score for cows classified in Pennsylvania since the program started is 78.8.

## STREAMLINING ITS MANAGEMENT SETUP

### Minnesota M. & M. Co. Elects Five New Vice- Presidents

#### ELEVATE TWO OTHERS

Rounding out its program of streamlining management operations, the board of directors of the Minnesota Mining and Manufacturing Co., St. Paul, Minnesota, Wednesday elected five new vice presidents and raised two others to executive vice presidencies, according to an announcement today by W. L. McKnight, president of the company.

The company is locating a branch here having purchased the Fleetwing Plant No. 2.

J. A. Borden, Bert S. Cross, J. C. Duke, Arthur E. Eggert and Ivan C. Lawrence are the newly elected officers.

Borden, who has been with the company for 23 years, will head the tape division, where he has been sales manager for seven years.

Heading the abrasive division will be J. C. Duke, who has been merchandising these products for seven years. He has been with the company since 1921.

Cross will be in charge of the "Scotch-lite" division, in which he has been active in development and sales. He joined the company in 1926.

Lawrence, who has been director of personnel administration for five years, will continue as staff head. Eggert, formerly director of public relations, will assume broader responsibilities in expanding the company's public relations program.

"Because of the unusual and continuing diversification of our business," McKnight said, "an organizational structure which would insure the most efficient management to meet incident problems became a challenge a few years ago. After several years of study and experience, this situation is being met by extending what we call the vertical type of organization to all divisions of the parent company."

In this way, he explained, one man in each division will be responsible to the president through a staff organization set up to maintain a profitable operation and handle all normal business functions.

"This staff operation," he went on, "of which I am personally very proud and which will be available to the division head, consists of men who are experts in every phase of modern business from patent law to public relations."

## LEGION NEGOTIATING PURCHASE OF A HOME

### Veterans Organization At Newtown Buying The Hennessy Property

#### REASONS ARE GIVEN

NEWTOWN, Apr. 19 — Negotiations are underway by Newtown American Legion Post to purchase the John A. Hennessy property at 27 Court street.

An option to purchase has been taken by the Legion and methods of financing are under consideration. This building was inspected by the present building committee of the post together with the officers and members of the executive committee and found to be in excellent condition. It had the advantage of being the only available building of any size that could be financed for a reasonable amount.

To complete the purchase it will be vital for the Legion to obtain a large portion of the money already collected for the proposed Veterans' Memorial Building. The reasons advanced for buying this particular building now are as follows:

"1. It will provide an immediate and permanent meeting place for the Legion and its auxiliary. 2. It can be converted into an apartment building."

## Aeromodelers Enjoy Good Flying Weather

Members of the Aeromodelers enjoyed good flying weather at Fleetwings yesterday. Quite a few of the members flew their models.

A contest was held for rubber-powered models, and quite a few entries were attracted, particularly among the younger members. First prize was taken by Walter Kane, second prize by Perry Carter, and third went to Danny Davis. Prizes were awarded on the basis of workmanship and flyability. All prizes with the exception of one donated by the Trenton Hobby Center, were purchased by the Aeromodelers' treasury.

Some flying was also done with gasoline-powered models. James Van Sant did some nice inverted stunt flying until he got confused at the controls. "Bunky" Stevens turned in a startling speed flight estimated to have been nearly 100 miles per hour with his "Trail-blazer." C. Wells flew his model several times with an Ohlsson motor that is over eight years old.

A meeting will not be held Wednesday. A charter presentation will take place at the Elks Home on Thursday.

## Parking Meter "Boners"

Parking meter "boners" in the past two days have been on the upswing so it appears. Why the female sex are the main contributors to these "boners" is a matter of controversy.

One woman was leaving a store and noticed her time was up. So she dropped two pennies in the meter, hopped in the car and drove away muttering as she entered the car that "she hoped she had paid up for the overtime she had used!"

Another member of the fairer sex was seen inserting a nickel in a meter and then disappearing into one of the stores. Several minutes later she reappeared and was about to pull out when she noticed she had quite a few minutes left. "Do I get a refund?" asked the fair maiden of a person lounging near-by. The somewhat startled observer was apparently too surprised to answer for he shrugged his shoulders and sauntered slowly away, leaving the perplexed one pondering on what to do.

Then there was a young lass who parked her car, put money in a meter, and nonchalantly strolled along to do her shopping. On her return she was informed that she had violated the law by parking overtime. "But I just put several pennies in the meter," she exclaimed. Well it was true, but she had put the money in the wrong meter. "I thought you had to put the money in the meter closest to the car," she said. "Next time I'll put money in all the meters around me to be sure," she opined as she entered her car and drove slowly away.

## A SUMMARY OF THE NEWS

France, which has enjoyed a respite from political strife, experienced a renewal of oratory in anticipation of the reconvening of the National Assembly tomorrow. Former President de Gaulle addressed a huge throng in Marseille, a Communist stronghold, Premier Schumann spoke in Poitiers and Communist Leader Thorez in Paris. Each appealed for unity according to his lights.

The Russians decreed an end of property confiscation in their zone of Germany.

Armored cars of Trans-Jordan's Arab League took part in a battle three miles north of Jerusalem. Arab and Zionist sources reported. Both sides claimed victory as several thousand men waged a bitter struggle.

When the United Nations General Assembly reconvenes today, an attempt will be made to eliminate long, set speeches and proceed immediately with committee work on the Palestine question. Prompt action, it was felt, is essential because of the refusal of Zionists and Arabs to rally to the proposed truce. France was reported ready to propose sending an international force quickly to Jerusalem to protect holy places.

A steering committee of the Inter-

American Conference in Bogota agreed that the provisions of the Rio de Janeiro Treaty should apply to cases of armed attack on this hemisphere. Sniping broke out again in the Colombian capital, where political violence during the day resulted in the death of 12 persons.

In Washington, Senate committees will concentrate this week on defense items while House groups consider financing the European Recovery Program.

## ANNOUNCE BIRTH

Mr. and Mrs. Walter Repella, Jackson street, announce the arrival of a son, born Friday morning in Mercer Hospital, Trenton, N. J. Mrs. Repella is the former Anita Zug. The baby has been named Barry Alan and weighed 7 lbs. 13 oz.

## HYPNOTIST TO APPEAR

ANDALUSIA, Apr. 19 — William Clark, a hypnotist, will appear before members of Andalusia Parent-Teacher Association in the school house, here, this evening at eight o'clock. Officers will be elected.

## POLITICAL INVENTORY

Let's take stock politically.

What sort of opposition will the Republicans face this fall? In the last national election, 1946, the Republicans won hands down. The Democratic Party, under the leadership of President Truman, fell apart. Do the Democrats have any better chances this year?

To answer these questions, it is necessary to divide the Democratic picture into two parts, and consider them separately.

One has to do with the personal popularity of the man who is expected to be the Democratic standard-bearer—President Truman.

This is about as low as it can get. His own followers are in such open rebellion that they are frantically seeking some way of tossing him overboard and finding another candidate. Nothing indicates his strength is any greater among political independents.

The other part of the picture is the basic "situation." Let's jump back a bit. A year and a half ago, after Mr. Truman's terrific beating in 1946, he bounced out his aid brain trust and got a new one. This board of advisors laid out a blue-print of what was needed to get him back into the running for re-election.

No official announcement was ever made. Of course the politically ambitious don't talk about such things. But the program made itself evident quite soon. It was discussed at length in this column more than a year ago.

The objectives which Mr. Truman's brain trust set for his campaign called for the following:

- A. Creation of a "war" atmosphere.
- B. Keeping the boom alive.
- C. Boosting the Federal spending.
- D. Increasing the Federal payroll.
- E. Holding labor in line.

As will be noted at once, virtually all this program has been carried out successfully. The Truman backers have won just about everything they figured they needed a year ago, for a successful campaign this fall. Take the above items one by one.

We certainly have a war-scare. If there is anything in the proposition that the American people won't vote to "change horses" in the

The film depicts the high spots of the thrilling 13-hour parade and the convention's business sessions, which were addressed by some of America's outstanding leaders. It is a 33 minute sound film.

Every Legionnaire who was unable to go to New York will want to see these scenes of the Legion's biggest convention. Commander Healey says "Also, those who were there will want to see themselves on the screen," and urges every member to attend this meeting and bring with him as many interested guests as he can.

## STREAMLINING ITS MANAGEMENT SETUP

### Minnesota M. & M. Co. Elects Five New Vice-Presidents

## ELEVATE TWO OTHERS

Rounding out its program of streamlining management operations, the board of directors of the Minnesota Mining and Manufacturing Co., St. Paul, Minnesota, Wednesday elected five new vice presidents and raised two others to executive vice presidencies, according to an announcement today by W. L. McKnight, president of the company. The company is locating a branch here having purchased the Fleetwing Plant No. 2.

J. A. Borden, Bert S. Cross, J. C. Duke, Arthur E. Eggert and Ivan C. Lawrence are the newly elected officers.

Borden, who has been with the company for 23 years, will head the tape division, where he has been sales manager for seven years.

Heading the abrasive division will be J. C. Duke, who has been merchandising these products for seven years. He has been with the company since 1921.

"Cross will be in charge of the 'Scotchlite' division, in which he has been active in development and sales. He joined the company in 1926.

Lawrence, who has been director of personnel administration for five years, will continue as staff head. Eggert, formerly director of public relations, will assume broader responsibilities in expanding the company's public relations program.

"Because of the unusual and continuing diversification of our business," McKnight said, "an organizational structure which would insure the most efficient management to meet incident problems became a challenge a few years ago. After several years of study and experience, this situation is being met by extending what we call the vertical type of organizations to all divisions of the parent company."

In this way, he explained, one man in each division will be responsible to the president through a staff organization set up to maintain a profitable operation and handle all normal business functions.

"This staff operation," he went on, "of which I am personally very proud and which will be available to the division head, consists of men who are experts in every phase of modern business from patent law to public relations." Continued on Page Five

## LEGION NEGOTIATING PURCHASE OF A HOME

### Veterans Organization At Newtown Buying The Hennessy Property

## REASONS ARE GIVEN

NEWTOWN, Apr. 19 — Negotiations are underway by Newtown American Legion Post to purchase the John A. Hennessy property at 27 Court street.

An option to purchase has been taken by the Legion and methods of financing are under consideration. This building was inspected by the present building committee of the post together with the officers and members of the executive committee and found to be in excellent condition. It had the advantage of being the only available building of any size that could be financed for a reasonable amount.

To complete the purchase it will be vital for the Legion to obtain a large portion of the money already collected for the proposed Veterans' Memorial Building. The reasons advanced for buying this particular building now are as follows:

1. It will provide an immediate and permanent meeting place for the Legion and its auxiliary.
  2. It can be converted into an apartment house.

## Aeromodelers Enjoy Good Flying Weather

Members of the Aeromodelers enjoyed good flying weather at Fleetwings yesterday. Quite a few of the members flew their models.

A contest was held for rubber-powered models, and quite a few entries were attracted, particularly among the younger members. First prize was taken by Walter Kane, second prize by Perry Carter, and third prize by Danny Davis. Prizes were awarded on the basis of workmanship and flyability. All prizes with the exception of one donated by the Trenton Hobby Center, were purchased by the Aeromodelers.

Some flying was also done with gasoline-powered models. James Van Sant did some nice inverted stunt flying until he got confused at the controls. "Bunky" Stevens turned in a startling speed flight estimated to have been nearly 100 miles per hour with his "Trailblazer." C. Wells flew his model several times with an Ohlsson motor that is over eight years old.

A meeting will not be held Wednesday. A charter presentation will take place at the Elks Home on Thursday.

## FILES \$2,010 SUIT AGAINST FORMER DOYLESTOWN MAN

### Complainant Alleges Cloth Not What It Was Represented

## CLAIMS BIG LOSS

### Two of Three Divorce Libellants Are the Husbands

DOYLESTOWN, Apr. 19 — Four suits, one of which involves a claim of \$2,010 against Hugh Collins, formerly of this place, and now of New Britain, and three libels in divorce in which two of the libellants are husbands, have been filed in the Court of Common Pleas, here.

Hugh Collins, New Britain, and Mervin Kulp, "not found," co-partners in Sekay Trading Company, here, have been named the defendants in an action in assumpsit by Benjamin M. Knapp, 455 Broadway, New York, N. Y., claiming the sum of \$2,010.80 with interest.

The complainant, in a statement of claim in the Prothonotary's office, alleges that on May 14, 1945, he bought 10 bales of 500 yards of 69-inch grade airplane cloth for which he paid \$6,000.

He further alleges that the cloth was misrepresented and that he sold on January 14, 1946, 1,040 yards and at another time 8,105 yards at 45 cents a yard sustaining a loss of \$2,010.80.

Pauline S. Godshall, Hagersville, has named her husband, William Walter Godshall, 527 Vine street, Perkasie, the respondent in a divorce action. They were married Feb. 22, 1941, by Rev. John Waldehlich, pastor of St. Michael's Lutheran Church, Sellersville. They separated February 19th.

Julia Grace Purvin, 1403 West Lenox avenue, Philadelphia, has been sued for divorce by her husband, Albert W. Purvin, Bath road, Bristol township. They were married May 18, 1941, in Crofton, and separated February 2, 1946.

## Parking Meter "Boners"

Parking meter "boners" in the past two days have been on the upswing so it appears. Why the female sex are the main contributors to these "boners" is a matter of controversy.

One woman was leaving a store and noticed her time was up. So she dropped two pennies in the meter, hopped in the car and drove away muttering as she entered the car that "she hoped she had paid up for the overtime she had used."

Another member of the fairer sex was seen inserting a nickel in a meter and then disappearing into one of the stores. Several minutes later she reappeared and was about to pull out when she noticed she had quite a few minutes left. "Do I get a refund?" asked the fair maiden of a person lurking near-by. The somewhat startled observer was apparently too surprised to answer for he shrugged his shoulders and sauntered slowly away, leaving the perplexed one pondering on what to do.

Then there was a young lass who parked her car, put money in a meter, and nonchalantly strolled along to do her shopping. On her return she was informed that she had violated the law by parking overtime. "But I just put several pennies in the meter," she exclaimed. Well it was true, but she had put the money in the wrong meter. "I thought you had to put the money in the meter closest to the car," she said. "Next time I'll put money in all the meters around me to be sure," she opined as she entered her car and drove slowly away.

## POLITICAL INVENTORY

Let's take stock politically. What sort of opposition will the Republicans face this fall? In the last national election, 1946, the Republicans won hands down. The Democratic Party, under the leadership of President Truman, fell apart. Do the Democrats have any better chances this year?

To answer these questions, it is necessary to divide the Democratic picture into two parts, and consider them separately.

One has to do with the personal popularity of the man who is expected to be the Democratic standard-bearer—President Truman.

This is about as low as it can get. His own followers are in such open rebellion that they are frantically seeking some way of tossing him overboard and finding another candidate. Nothing indicates his strength is any greater among political independents.

The other part of the picture is the basic "situation." Let's jump back a bit. A year and a half ago, after Mr. Truman's terrific beating in 1946, he bounced out his old brain trust and got a new one. This board of advisors laid out a blue-print of what was needed to get him back into the running for re-election.

No official announcement was ever made. Of course the politically ambitious don't talk about such things. But the program made itself evident quite soon. It was discussed at length in this column more than a year ago.

The objectives which Mr. Truman's brain trust set for his campaign called for the following:

- A. Creation of a "war" atmosphere.
- B. Keeping the boom alive.
- C. Boosting the Federal spending.
- D. Increasing the Federal payroll.
- E. Holding labor in line.

As will be noted at once, virtually all this program has been carried out successfully. The Truman backers have won just about everything they figured they needed, a year ago, for a successful campaign this fall. Take the above items one by one.

We certainly have a war-scare. If there is anything in the proposition that the American people won't vote to "change horses" in the Continued on Page Two

## LATEST NEWS BULLETINS

### Prepare for Revolt of 'Reds' as Polls Close

Rome — The polls closed in Italy's crucial election this afternoon with a defeat for Communism seemingly inevitable and the Government all prepared to quell a Red revolt. Italy's defense minister announced that a "flawless plan" is in readiness to thwart a Communist plot expected to coincide with the counting of election returns.

### Have Tested An Atomic Weapon

Washington — The Atomic Energy Commission announced today that there has been "a test" of an atomic weapon at the Eniwetok Atoll Experimental Base in the Pacific. The Commission said that the date of the test is not being announced "for security reasons." The Commission said that a classified report on results of the test is being made to the Congressional Atomic Energy Committee. The type of weapon tested was not revealed. However, Congressional sources said last week that the world's sixth explosion of an atomic bomb had occurred at Eniwetok. A reliable source on Capitol Hill told International News Service last Thursday that "an atomic bomb has been dropped at Eniwetok." The Eniwetok base has been set aside as a highly-secret proving ground for the testing of atomic weapons. Today's announcement was the first official disclosure of a test being made at the base.

### Lewis and Union Judged Guilty

Washington — Federal Judge Goldsborough today held John L. Lewis and the United Mine Workers union guilty of criminal contempt in connection with the 29 day soft coal strike. Sentence was not immediately imposed.

The Jurist announced his ruling after lengthily tracing the history of the mine pension controversy which led to the walkout of 400,000 soft-coal miners. He said:

"The Court thinks there is no difficulty about deciding that the evidence, beyond all reasonable doubt and practically beyond all doubt, is sufficient to show that a strike was called and, of course, is sufficient to show that the defendants are guilty of criminal contempt."

The Court postponed sentence until 10 o'clock tomorrow morning and announced that it would ask the government for recommendations on the penalty.

### ON THE SEVEN SEAS

It should not be news to any-  
body that the United States is now  
the possessor of the largest mer-  
chant marine. In fact, it is only  
slightly noteworthy that this coun-  
try's total gross tonnage is almost  
90 per cent of all that is owned  
throughout the world.

But what does cause some sur-  
prise is the disclosure in the new-  
ly published appendix of Lloyd's  
register for 1947-48 that Great  
Britain has almost made up the  
enormous shipping losses she  
suffered during the war. At the  
end of last year she was only a  
mere 43,000 tons behind her pre-  
war total. Considering the size of  
the task involved this recovery  
states as an amazing achievement  
and shows what can be done  
when a nation really gets to work  
earnestly.

The advance of the United  
States along the shipping lanes is  
best reflected in the fact that in  
1901 this country's share of the  
world's tonnage was slightly over  
10 per cent, while Great Britain  
and Ireland possessed more than  
40 per cent. Today the U. S. total  
is nearly 30 per cent is far greater  
than that of any other country.

The United States, as is gen-  
erally known, came out of the war  
with more shipping than it had at  
its beginning. A few other na-  
tions, including the Soviet  
Union, Canada, China, Argentina  
and Sweden, also showed gains  
in tonnage. Heaviest losers in  
damage as a result of the war  
were Germany and Japan, with  
Great Britain and Italy not far  
behind.

### PROTECTION BY AIR

In the now universally recog-  
nized necessity of strengthening  
the military power of the nation  
as quickly as possible, first em-  
phasis will be placed on airplanes.  
Other moves will wait until that  
aim has been increased to the  
point where it will be invincible  
against the best Russia has to  
offer.

Secretary of Air Symington  
has asked for a 70-group air  
force, to be made up of the latest  
craft, plus considerable fleets left  
over from the last conflict, many  
of these to be modernized.

Congress has shown a favor-  
able attitude toward increased air  
strength and undoubtedly will  
supply the necessary funds. As  
it is widely predicted the next  
conflict, should it come, would be  
fought largely in the air, at least  
in its preliminary stages, a force  
which could dominate the situa-  
tion would be the nation's best  
protection.

Secretary Symington points  
out that Russia would be im-  
pressed by such power. There is  
a possibility it might be the means  
of preventing war entirely and  
bringing about a treaty of peace be-  
tween the two countries, ending  
a situation which has the whole  
world in a state of jitters.

New home for United Nations,  
now under construction, may have  
to be used for other purposes. In  
the Midwest such structures  
would be designed with an eye to  
easy conversion into hay barns.

## ECHOES OF THE PAST

(By Courier Staff Member)

Review of the news as it appeared in the Bucks County Gazette  
issued dated at Bristol Jan. 27, 1898. The Gazette, a weekly news-  
paper published in Bristol, was discontinued following its merger  
with the Courier.

An accident that resulted in the  
death of Albert Wildman, aged 30,  
occurred at the Newtown electric  
light plant Sunday evening. Wild-  
man intended to enter the employ  
of the company, and he, with the  
assistance of Manager George Mit-  
chell, attempted to remove a belt  
from a wheel. The wheel was not  
in motion, and the belt stuck. When  
it finally slipped off, Wildman lost  
his balance and fell against a big  
driving wheel which was revolving  
swiftly. Some part of the machinery  
struck his head, crushing his skull,  
killing him almost instantly.

The Republican Executive Com-  
mittee of Bristol borough held a  
meeting at the residence of E. W.  
Minster on last Monday evening for  
the purpose of organization. For  
chairman, E. W. Minster and Harry  
H. Smith were nominated. Mr.  
Minster was the choice of nine out  
of 12. William A. Barnhill was chosen  
treasurer, and W. Parker Fine  
secretary. The chairman of the war  
committee are: 1st ward, E. W. Min-  
ster; 2nd ward, George W. Wright;  
3rd ward, Harry H. Smith; and the  
4th ward, J. R. Pearson.

Joseph Durkin has returned from  
a trip around the world. Mr. Durkin  
has been purchasing wool for Wil-  
liam H. Grundy and Co., at the  
London market and from there went  
to Australia, to New Zealand, and  
returned home by way of San Fran-  
cisco.

There was a warm time at Hulme-  
ville on Monday night at the Repub-  
lican meeting. Fred Staake was re-  
nominated to council for the three  
years term over Abraham Shaw by  
37 votes to 25. Howard Vansant was  
chosen for the two years term.

On Monday a Philadelphia cattle  
dealer brought into Bristol some 20

head of cattle which he had pur-  
chased in New Jersey, and put them  
in the yard adjoining Strobel's  
stables on Cedar street. The day was  
intensely cold and the cattle were  
nearly famished. No arrangements  
were made to give them either food  
or shelter. Late in the afternoon it  
was ascertained that the dealer had  
gone to Philadelphia and Harry C.  
Evans and Ernest Lawrence hunted  
up pound keeper Charles Saxton,  
and informed him of the condition  
of affairs. The cattle were housed  
and fed. On Tuesday when the deal-  
er sent a couple of men to drive  
them to the city, one was retained  
as security for the care taken of the  
drove.

Bucks County was represented at  
the Wanamaker convention at the  
Bourse yesterday by the following  
Republicans: Walter F. Leedom, J.  
S. Haskey, George H. Henry, A. M.  
Wildman and Alfred Paschall.

(Following items from Gazette of  
Feb. 10, 1898.)

A number of men were employed  
last Friday to cover all the bare  
spaces on Radcliffe street with  
snow to enable a match race to be  
had between E. W. Minster's Lady  
V. and Joe Wright's Patsy Clinker,  
geared to light cutters. The race  
did not come off, however, on ac-  
count of the borough ordinance pro-  
hibiting fast driving in the town.

The ferry William E. Doron broke  
her rudder last Monday morning,  
when she was breaking the ice be-  
tween Bristol and Burlington to  
enable the men to grapple for the  
body of Miss Fields, who was  
drowned on Friday.

Work will be resumed on the  
construction of the large addition to  
St. Francis Industrial School at  
Edgington as soon as the weather  
permits.

## Political Inventory

Continued from Page One

midst of a military emergency, then the odds are heavily against any  
new President being elected.

As to the boom, the country still has the illusion of prosperity. Em-  
ployment is high, wages are high—and so, unhappily, are prices. There  
are uneasy factors. The stock-market certainly is down, and jittery.  
Venture capital has "taken a walk" when it comes to new or enlarged  
enterprises. Business looks good in dollars, not so hot in volume. Turn-  
over grows, but earns little more profits. Industry is doing more and  
more for less and less.

Whatever this situation might lead to in coming months, the  
Administration has taken out insurance for the period from now to the  
November election. There is approximately \$10 billions of new money  
being dumped into the boom to keep it going; \$6 billions in the Mar-  
shall Plan, \$4 billions or so of new defense activities.

This is a blood-transfusion, a piece of pump-priming, on a scale  
large enough to stave off either panic or depression until after the votes  
are counted—barring some unforeseen catastrophe.

As to the Federal spending, it's like something out of this world. No  
man in history ever ran for re-election with more loose cash in the form  
of public moneys at his beck and call—with a bigger political war chest.

In addition to the \$10 billions just mentioned, every cent of which  
is to be spent under the President's supervision, he also has the regular  
budget of \$40 billions, coupled with all of the numerous Federal and  
international lending agencies which can borrow and spend almost as  
much more.

The fact of the matter is that Mr. Truman now can spend, or com-  
mit for spending, more money between now and November than even  
the late-President Roosevelt, supposedly the record-holder in spending,  
would have found possible at the peak of the war!

This translates into the fourth objective, which was a big Federal  
payroll. Since the war, the payroll has never gone back to normal. Its  
lowest ebb was barely under two million, compared with about half a  
million before the war. And now it can surge upwards just as fast as  
"the faithful" can be located by the Democratic patronage machinery.  
The lid is off. The Administration has the money, and it has the excuse.  
Only in the field of labor has the Truman brain trusters been unable  
to do everything they set out to do. They hadn't counted on their fellow-  
Democrats joining with the Republicans to over-ride the President's  
veto of the Taft-Hartley Act. The Administration has done its best to  
nullify that Act by non-enforcement—but it couldn't keep its promise to  
prevent its enactment.

The big element in the labor picture, from the political point of  
view, is whether the Democratic candidate is going to be able to bargain  
with a handful of labor bosses who are in control of labor's money and  
labor's votes, and capable of "delivering" them for the President's re-  
election.

The Taft-Hartley Act prohibits this. That's one of the biggest rea-  
sons for the fight against it. However, the door appears to have been  
opened for court rulings that would declare these prohibitions against  
bossed and bought elections to be unconstitutional. That would give  
the union bosses a free rein in supporting Mr. Truman's re-election—  
assuming they feel that way about it.

The over-all estimate appears to be that the backers of Mr. Truman  
are entering this campaign with more money than ever before, plausible  
excuses for using it however they wish, at a time when war-talk has  
produced a virtual public hysteria, and prepared to function under rules  
which the politicians will write for themselves.

For those who have labored so hard and so successfully to lay the  
groundwork for a successful Democratic campaign this year, it must be  
heartbreaking to see the President kick away most of their accomplish-  
ments with his own blunders and tactlessness.

The President has made three major political blunders (and a lot  
of minor ones as well) in rapid succession. They are:

1. Driving Wallace into the third party movement.  
2. Antagonizing the South with his civil-rights schemes.  
3. Walking out on the Jews in Palestine.

The result is the interesting picture of the Democratic Party, armed  
with more "sinews of war" for its campaign than ever before, able to  
pick its own issues and write its own rules, being handicapped with a  
candidate whose personal popularity is so low that probably twenty  
times that much backing wouldn't re-elect him.

## THE GREAT GAME OF POLITICS

By FRANK R. KENT

### Douglas and His Boomers

Washington, April 19.—The probable result of the current boom for Supreme Court Justice W. O. Douglas as the Democratic presidential nominee easily may be to make his sponsors and promoters ridiculous without getting this not overly modest person off the high bench upon which some citizens think he should never have been placed.

OF course, the movement to nominate Mr. Douglas comes from the little clique of far to the left Roosevelt "liberals," of which he was one before he was appointed and with whom he has kept in close touch since. This is the faction which is so desperately trying to ditch Mr. Truman and the reasons it is building up Mr. Douglas while still shouting for General Eisenhower are entirely clear. In the first place, the obvious fact has pretty well sunk in that unless they find someone other than General Eisenhower around whom to rally they are likely to find themselves in a most uncomfortable fix, indeed. For, most reasonably informed men are now convinced that under no circumstances will the General lend himself to any such transparent hocus pocus as is involved in this project to "draft" him in a Democratic Convention.

MOREOVER, if they go much farther along present lines he is going to tell them so in no uncertain terms. At least that is the conviction of intimates who best know the way Dr. Eisenhower feels on this subject. In particular, they report that though he does not want to make another statement, more talk such as recently emanated from the ebullient Mr. Chester Bowles is likely to bring an outburst from the doctor which they will not like at all. A few days ago this Mr. Bowles, whose virtues were much overadvertised when he was here as price administrator, somewhat pompously declared that if it developed that Dr. Eisenhower's views on economic, social and political matters are "satisfactorily liberal and progressive," then he should be drafted. The patronizing language in which this great thought was clothed certainly irritated Dr. Eisenhower's friends, and there is reason to believe did not go down well with the doctor himself.

AT any rate, even some of the most enthusiastic journalistic supporters of the "Down the Drain"

with Truman effort, are weakening on the Eisenhower idea—first, because they know he can't be had; second, because they know he isn't their kind of "liberal" anyhow. Once these two things are accepted, the Douglas boom was inevitable. For one thing, Mr. Douglas, always a 100 per cent New Dealer, is the ideal of the Roosevelt "liberals." For another, ever since he became a member of the Supreme Court, he has been constantly boomed for some political office, much to the annoyance of some of his colleagues who regard his acquiescent, not to say encouraging, attitude as not in tune with the highest traditions of the court.

—O—  
PRIMARILY, it is said, he is the favored candidate of Mr. "Tommy" Corcoran, once Mr. Roosevelt's fair-haired boy and now "cashing in" in a big way as a Washington lawyer. There is no doubt that Mr. Corcoran and the elements which want to lynch Mr. Truman would rather have Mr. Douglas as the

Democratic candidate than anyone else. Naturally, but there are very considerable obstacles in the way of that wish. One is that nothing even resembling a plausible "draft" can be rigged for Mr. Douglas in the Democratic Convention. Southern Democrats would have even better reasons for opposing his nomination than they have for opposing Mr. Truman's. And, in the unlikely event of his nomination, conservative, anti-New Deal Democrats would have no alternative save support of the Republican candidate.

—O—  
THE only real enthusiasm for Mr. Douglas is among the Roosevelt intimates of the aforementioned clique, including the "Roosevelt Boys" and the CIO leaders who affiliate or sympathize with this overpublicized group. In brief, Mr. Douglas's prospects of election certainly would be no better than Mr. Truman's if as good. That quite obvious fact creates the second obstacle, which is Mr. Douglas's almost certain refusal to run.

This is not because he does not like to be President or Vice President. And not because he does not love the publicity accompanying his boom. It is because, however extreme Mr. Douglas's views may be, he is not sufficiently unbalanced to give up the security and dignity of a seat on the Supreme Court to make a run for the presidency with the odds so heavily against success. That would be feeble-minded indeed. And that, of course, goes double for Chief Justice Vinson.

—O—  
SO, the pro-Roosevelt, left-wing effort to lynch Mr. Truman seems

likely to wind up with the pro-Roosevelt left-wingers in a ditch of their own diggings. They have no candidate. Nor are they likely to get one who will do any better than Mr. Truman. They hate the Republicans. They hate Mr. Wallace and they hate Mr. Truman, though advocating the Truman policies. Apparently, they hate everyone except themselves. Their real hope seems to be to bring back the old Roosevelt days through one of the "Roosevelt boys"—not a very robust prospect. At the moment they occupy a rather silly position which will get more so as it becomes clearer.

## Attractive Wedding At St. Ann's Church Here

A very pretty spring wedding took place Sunday afternoon, when Miss Marie Napoli became the bride of Mr. Rocco J. Angioletti, of 1624 S. Broad street, Trenton, N. J. The double ring ceremony was performed at two o'clock in St. Ann's Church, Bristol, by the Rev. Father Peter Pinci.

The bride, daughter of Mr. and Mrs. Angelo Napoli, was given in marriage by her father. She was attractively gowned in lace and satin. The gown had a lace bodice with a V-neck and long sleeves; the skirt of satin was full and long, ending in a train. Her head-dress was Dutch shape of lace trimmed with orange blossoms, and she wore a long veil falling over her train. The bride's bouquet was of white sweet peas and lilies-of-the-valley, with a white orchid. She wore white satin slippers.

The former Miss Napoli chose for her maid of honor Miss Frances Monti. She wore a gown of aqua, with a satin bodice and full skirt of nylon with a bustle back. The bridesmaids wore a picture hat of nylon to match the gown, aqua mitts and wore gold slippers.

The bridesmaids were Miss Frances Monti and Miss Rosemary Angioletti. They were dressed like the maid-of-honor except that their outfits were lavender. The three attendants carried bouquets of lavender sweet peas with a lavender orchid.

Mr. Angioletti was attended by Mr. Joseph Rigato, Newark, as best man. The ushers were Mr. Louis Napoli and Mr. John Cutchinal.

For the ceremony the bride's

mother, Mrs. Napoli, wore open blue with black accessories, and a corsage of a lavender orchid; Mrs. Angioletti wore black with matching accessories and a lavender orchid.

A bridal dinner for the attendants and immediate family was served at the Roman Hall, Trenton, followed in the evening by a reception for the newlyweds. About 275 guests attended.

The former Miss Napoli was a graduate of the Tullytown school and was employed by the Paterson Parchment Paper Co. Her gifts to her attendants were maracasite crosses. Mr. Angioletti gave his attendants maracasite tie clasps. He served as a sergeant in the army in the E. T. O., and is employed at the De Laval Company, Trenton.

For her honeymoon Mrs. Angioletti chose a gray suit with black accessories and wore the orchid from her bridal bouquet. Following a two weeks' automobile trip to Canada the newlyweds will make their home with the bride's parents.

By The  
Rev. Bickley Burns Broadhead  
Pastor  
Bensalem Methodist Church

O God, Thy holiness is above all our thoughts and beyond all our vision. We turn to Thee in this quiet moment because Thou has formed all our hearts to love Thee, and made all our ways lead unto Thee. All the earth is full of Thy glory; our hearts are empty without Thy love and presence. Stoop to our weakness. Lift us towards Thy paths of holier living, and lead us on paths of righteousness until we are one with Thee, Amen.

## "CAGE" LEAGUE TO HOLD BANQUET WED., MAY 5TH

The annual banquet of the Bristol Basketball League will be held Wednesday night, May 5th, at the Glass Manor, Andalusia. Tickets for the affair will be given to the various managers at a meeting to be held this week.

The championship Proty team will be awarded the Bristol Chamber of Commerce trophy and also be given a trophy for winning the regular season crown. The Fifth Ward Sporting Club will receive the runner-up trophy to be donated by Pat's Drug Store.

At a meeting last week, the manager voted on the most valuable player and he will receive a trophy at the banquet. The ballots will not be counted by the officers until the night of the affair.

"Augie" Everett, the league's high scorer, will be given an award for his efforts and the best foul shooter will also be given a trophy.

Each member of the championship Proty team will receive gold watch charms, a gift from the other teams in the circuit.

## Streamlining Its Management Setup

Continued from Page One

To complete the plan of organization for "greater effectiveness," A. G. Bush was elected executive vice president responsible for marketing and distribution, and R. P. Carlton has been elected executive vice president in charge of manufacturing, engineering and research. Bush has been with the company since 1909, and first became a vice president in 1922.

Carlton joined the company in 1921, and was vice president in charge of production and development from 1929.

The executive vice presidents will act for and with the president in

formulating policies and exercising broad controls.

The new reorganization plan also sets up a management committee, composed of the president, the executive vice presidents, and the heads of staff functions, product divisions and subsidiaries.

Bush will be chairman of this group, which is designed to assist in formulating policies, deciding important company actions, and keep members informed of company affairs.

## 'Reds' Cry 'Fraud' As Step Is Taken Against Plot

Continued from Page One

Facchinetti exposed the plot as Communist leaders were privately conceding that the heavy turnout in yesterday's polling had drowned their victory hopes.

The Defense Minister said that the plot constitutes the Communists' "next to last" chance to take advantage of the election-inflamed tempers of Italian voters.

He said it called for them to drum up a nationwide celebration of their supporters by announcing their own victory even before the ballots have been counted. They intend to follow this, he said, by admitting their defeat.

Facchinetti explained that the plot is designed to provoke a right-wing reaction to the victory announcement, and then to stir up Communist ranks by the announcement of defeat.

"In the confusion," he asserted,

"they hope to sound out the possibility of an uprising."

Pointing out that troops and police will be split up during the next 50 hours while they guard ballot boxes and counting places, Facchinetti said that he has organized a

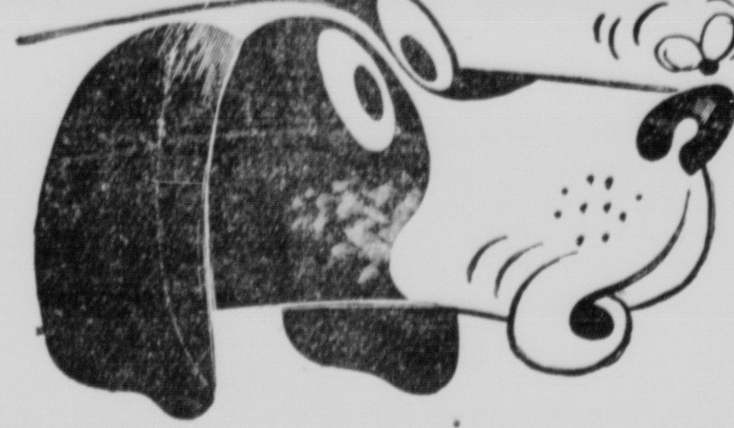

redistribution of government forces to quell the Communist attempt.

He emphasized that though the Communists may be frustrated this time, they will still have later opportunities to attempt a coup. He forecast that such an attempt

may be made on Kremlin orders when Italy considers joining the Western Union Military Alliance.

## PHILLIES UNVEIL NEW INFIELD DUO

"Best In Baseball," say experts who forecast great season for sharp-fielding Verban and Miller.

Thousands of eyes will turn their way when the 1948 PHILLIES man the turf against Boston's hot Braves in the League opener—Tuesday, April 20.

In the opinion of professional observers, Miller and Verban will form the greatest keystone combination in the PHILLIES' history. For many seasons Eddie Miller has been the "Mr. Shortstop" of the National League—and now, teaming up with Emil Verban, will give the Phillies a truly great double play duo.

Miller, who smashed 19 home runs for Cincinnati last year, should add punch and, in Bert Haas, the Phils have acquired a tested—powerful—performer.

Why not plan to join the crowd on Tuesday when the Blue Jays open a 3 game series against Boston's jet-propelled athletes? Come on out and greet last year's stalwarts: Harry (The Hat) Walker, Del Egan, Dutch Leonard, Andy Seminick, Schoolie Rowe. Make plans now to come out and get acquainted with the new additions.

Meet colorful new Blue Jays like 'Bama Rowell and Dick Sisler, ex-Cardinal star. Meet

the League's most talked-about youngster, Curt Simmons... and Walt Dubiel, who racked up 15 wins for Seattle; Ed Heusser, 19 game winner at Montreal and Richie Ashburn, the sensation of the Grapefruit League.

You'll get a bang out of the 1948 color-packed PHILLIES. Whatever else happens, you can be sure this club will be scrapping and hustling every inning of every game. So come out early, come out often—enjoy baseball at its exciting best.

And don't forget: you can buy seats now for any home game of the 1948 season—as far in advance as you wish. That's right. Why worry about crowds? Just buy your seats in advance. It's easy to do. Just send check to PHILLIES CENTRAL CITY TICKET OFFICE, 1420 Chestnut Street or PHILLIES SHIBE PARK OFFICE. (Box seats, \$2.50; Reserved Seats, \$2.00.) MAIL ORDERS PROMPTLY FILLED.

There Are No Regrets When You Buy In Advance Here are THE PHILLIES home dates, through May. You can buy a seat for any of these games, right now, and save yourself time, trouble, disappointment.

## "CAGE" LEAGUE TO HOLD BANQUET WED., MAY 5TH

The annual banquet of the Bristol Basketball League will be held Wednesday night, May 5th, at the Glass Manor, Andalusia. Tickets for the affair will be given to the various managers at a meeting to be held this week.

The championship Proty team will be awarded the Bristol Chamber of Commerce trophy and also be given a trophy for winning the regular season crown. The Fifth Ward Sporting Club will receive the runner-up trophy to be donated by Pat's Drug Store.

At a meeting last week, the manager voted on the most valuable player and he will receive a trophy at the banquet. The ballots will not be counted by the officers until the night of the affair.

"Angie" Everitt, the league's high scorer, will be given an award for his efforts and the best foul shooter will also be given a trophy.

Each member of the championship Proty team will receive gold watch charms, a gift from the other teams in the circuit.

## Streamlining Its Management Setup

Continued from Page One

To complete the plan of organization for "greater effectiveness," A. G. Bush was elected executive vice president responsible for marketing and distribution, and R. P. Carlton has been elected executive vice president in charge of manufacturing, engineering and research. Bush has been with the company since 1909, and first became a vice president in 1922.

Carlton joined the company in 1921, and was vice president in charge of production and development from 1929.

The executive vice presidents will act for and with the president in

formulating policies and exercising broad controls.

The new reorganization plan also sets up a management committee, composed of the president, the executive vice presidents, and the heads of staff functions, product divisions and subsidiaries.

Bush will be chairman of this group, which is designed to assist in formulating policies, deciding important company actions, and keep members informed of company affairs.

## 'Reds' Cry 'Fraud' As Step Is Taken Against Plot

Continued from Page One

Facchinetti exposed the plot as Communist leaders were privately conceding that the heavy turnout in yesterday's polling had drowned their victory hopes.

The Defense Minister said that the plot constitutes the Communists' "next to last" chance to take advantage of the election-inflamed tempers of Italian voters.

He said it called for them to drum up a nationwide celebration of their supporters by announcing their own victory even before the ballots have been counted. They intend to follow this, he said, by admitting their defeat.

Facchinetti explained that the plot is designed to provoke a right-wing reaction to the victory announcement, and then to stir up Communist ranks by the announcement of defeat.

"In the confusion," he asserted,

"they hope to sound out the possibility of an uprising."

Pointing out that troops and police will be split up during the next 50 hours while they guard ballot boxes and counting places, Facchinetti said that he has organized a

redistribution of government forces to quell the Communist attempt.

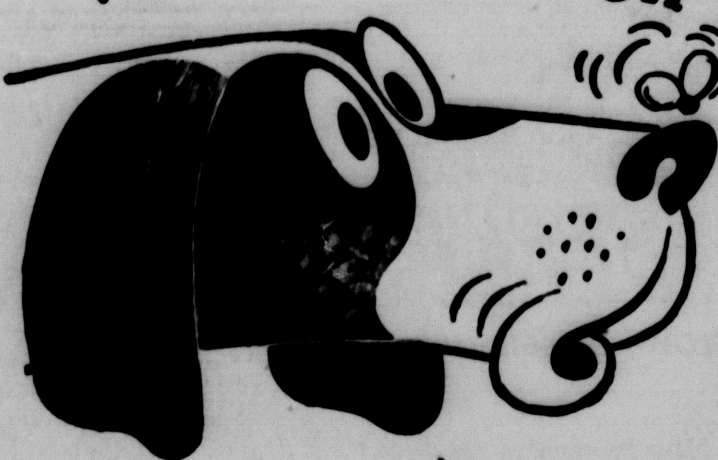

He emphasized that though the Communists may be frustrated this time, they will still have later opportunities to attempt a coup.

He forecast that such an attempt

may be made on Kremlin orders when Italy considers joining the Western Union Military Alliance.

## PHILLIES UNVEIL NEW INFIELD DUO

"Best in Baseball," say experts who forecast great season for sharp-fielding Verban and Miller.

Thousands of eyes will turn their way when the 1948 PHILLIES man the turf against Boston's hot Braves in the League opener—Tuesday, April 20.

In the opinion of professional observers, Miller and Verban will form the greatest keystone combination in the PHILLIES' history. For many seasons Eddie Miller has been the "Mr. Shortstop" of the National League—and now, teaming up with Emil Verban, will give the Phillies a truly great double play duo.

Miller, who smashed 19 home runs for Cincinnati last year, should add punch and, in Bert Haas, the Phila have acquired a tested—powerful performer.

Why not plan to join the crowd on Tuesday when the Blue Jays open a 3 game series against Boston's jet-propelled athletes? Come on out and greet last year's stalwarts: Harry (The Hat) Walker, Del Ennis, Dutch Leonard, Andy Seminick, Schoolie Rowe. Make plans now to come out and get acquainted with the new additions.

Meet colorful new Blue Jays like 'Bama Rowell and Dick Sisler, ex-Cardinal star. Meet

the League's most talked-about youngster, Curt Simmons... and Walt Dubiel, who racked up 15 wins for Seattle; Ed Heusser, 19 game winner at Montreal and Richie Ashburn, the sensation of the Grapefruit League.

You'll get a bang out of the 1948 color-packed PHILLIES. Whatever else happens, you can be sure this club will be scrapping and hustling every inning of every game. So come out early, come out often—enjoy baseball at its exciting best.

And don't forget: you can buy seats now for any home game of the 1948 season—as far in advance as you wish. That's right. Why worry about crowds? Just buy your seats in advance. It's easy to do.
